## About This Game

### Precious Moments That Can Never Return

Although there has been a global pandemic due to an unknown virus, the protagonist spends his days happily surrounded by six beautiful classmates. Little does he know of the fate that awaits him... The "common route" which is the first half of the game, is filled with plenty of happy and romantic events! Enjoy happy moments with the heroines. Over 100 common events including dates and a swimming pool event!

### An Epic Fully Animated Adventure Game

Unlike no other adventure game in the past, this game features the 2D animation tool "E-mote" which provides full animation in all dialogue scenes and cut scenes, making it feel like you were watching an anime. Additionally, the entire massive scenario is voiced completely (including the protagonist) and features detailed reactions by all the characters, making players want to watch all the lines of dialogue without skipping them.

### Over 30 Songs Included in the Game!

This game features over 30 songs within the production. There are 2 opening theme songs and 6 ending theme songs, all sung by a colorful cast of voice actors who play the parts of the heroines. The 3D battle system features rhythm game attributes in which you select characters from the fictional girl group "Dream 4 You" to create different combinations for the battle songs.

Hurt my feeling, I've been waiting for Christmas to buying this game and enjoying it on long holiday.

But the game always crash. I never be able to play the game.

My pc is window7 and from other review this game seems unplayable on win7. can't start the game for win 7. Its a very.. unique game tbh. The game is broken into 2 parts, the first is your basic dating sim figuring out which girl you like an getting to know them etc. The second part is based of your choices then goes into a post-apocalyptic setting. Now the games not perfect but it is something to read and i did enjoy the routes.

There is no route order IMO as they all kinda spoil the other. I would do the other girls first then 1. Yuno 2. Akira 3. Kanon. Akira and Kannons story really spoil it so save them for last cause they get more into details about whats going on but that's just me.

As always guys do your research before you buy to make sure your mildly interested as this kind of setting/twist might not be up your alley.
